

**EAT FRESH ~ EAT LOCAL ~ EAT ORGANIC**

[www.osagegardens.com](http://www.osagegardens.com)

Osage Gardens is a family owned USDA Certified Organic Greenhouse Farm growing culinary herbs year round and supporting a 4-season CSA. We also participate in the local farmers markets, grow edible bedding plants, and raise free-range chickens for fresh farm eggs. We have ~25 employees and are located on the Colorado River just west of Glenwood Springs on the Western Slope of Colorado.

As an intern at Osage Gardens you will experience all aspects of operating a medium-scale organic farm. Much of your time will be spent in the fields and greenhouses planting, transplanting, harvesting, fertilizing, watering etc. We will introduce you to our planting and harvesting schedules, crop rotation, and produce projection. You will also help prepare foods for market, interact with the local customers, and may be involved in some of the administrative tasks of running a farm.

**Start of Internships:** End of May 2010

**End of Internship:** August/September 2010

We offer an off season internship program as well

Please inquire for specific details

**Minimum length of stay:** 3 months

**Number of Interns:** 2

**Application Method:** Email [byran@osagegardens.com](mailto:byran@osagegardens.com) resume and cover letter.

**Housing:** Provided: Basement apartment with own bedroom, full kitchen, bathroom and separate entrance. No pets please. No smoking.

**Transportation:** Residence to farm is within easy biking distance; however we strongly recommend that you have a car to access Glenwood Springs and local activities.

**Meals:** Responsible for own meals. Can use food from farm.

**Skills Desired:** Passion for organics! Garden or growing experience not necessary but helpful. Cannot shy away from hard work and dedication.

**Compensation:** Full Time \$150/week
